

Phantom Don't Go

Phantom don't go, stay with me. I got to have one more, stay with me.
You know I love your shape the most, stay with me. Make peace with the Holy Ghost, stay with me.

Phantom, don't ever leave. I need your powers if I'm 'gonna succeed.
Forgive the white hearts for doubting your soul. They know it takes two ancient halves to be whole.

Dead zone boys wish to take your life away, and the desperate phantoms wish to put you in their place.

Phantom don't go, stay with me. Dead zone boys coming close, stay with me.
Your the only one they listen to, stay with me. I keep a blade for your hand to use, stay with me.

Phantom, don't ever go. I want your powers but I 'gotta say no.
I 'gotta get right. I stained my eyes staring into the light.
Runes and sens buzzin' round my head. You glyph me out like I would rather be dead.
Your phantom dancing, your phantom strength, your phantom wisdom, your phantom bank.

Dead zone boys wish to take your life away, and the desperate phantoms wish to put you in their place.

Phantom don't go, stay with me. Dead zone boys coming close, stay with me.
Your the only one they listen to, stay with me. I keep a blade for your hand to use, stay with me.

Don't Go Phantom

Don't Go Phantom, I'm in love with you. I'll do anything you want me to do.

I remember when our eyes first met, you said you liked my style.
I told you that I'd walk with you, but only for a while.

Don't Go Phantom, I'm in love with you. I'll do anything you want me to do.

You had me do the things I knew, in my heart were wrong.
And now I'm understanding why, you've been around so long.

Don't Go Phantom, I'm in love with you. I'll do anything you want me to do.

I've been touched by water holy, my mother says it's so.
And I wanna give the light the glory, but now I can't let go.

Don't Go Phantom, I'm in love with you. I'll do anything you want me to do.

You've got the shape. The shape I love.

You Cried Me

Evil! In the first degree. But you still smile and welcome me.
If you dare keep me around. I take your soul with me underground.
I'll take you down with me girl. I'll bite your neck. I'll make you crawl.
And you'll make what's left of me shiver. When you cry me!

You're holding on to the last pure shreds. You're goin' down the ghost of a man.
I have to beg you to let go. Before it swallows you as well as me.
A zombie got me and she won't let go, if you won't go, you're 'gonna die, with a memory.
When you cry me!

I can feel it closing in, cold blood blooming in my body.
Now you say you'll share my sin, and live the evil life beside me.

No I can't let you do it. You should go there's not much time.
You gonna live this life with me you foolish person? Think again,
and be sure you weigh the consequences carefully!

Now we can be together forever, you and me livin' side by side
In an evil way! Ok? Alright!

Gonna Need the Guns/Doom Hope

(Crying)

When your trash man don't come (Gonna need the guns)
And when your landlord come
And now I'm the lord.
Shall I create you now?

The world took his body back to goo
But the man's complete and being born anew
But still with a new man,
You gotta do that good, Go!

You've been blessed with life
But don't expect to get anything done, or that the world won't eat you tomorrow
But keep that Doom Hope alive (Doom Hopel)
and maybe some of us will get out alive

(Frantic Crying)

East Side Bangs/East Side Fade

Welcome to...the vicious circle.

Desperate phantoms comin' for your money
and Dead Zone Boys are makin' awful sounds
Dark figures in the night all through the irv ignore the light
Unhappy with their fate 'cuz they're earth bound

Divine connection, we have a divine connection
Built of the light, strong and right
Woman of God, you're a woman of God
Whether you know it or not, you're a woman of God

East side bangs that crown the strong and hungry
Devil voices tempt us from the ground
But we will be alright if we preserve positive light
We know that what we have is seldom found

Dark and light, oh, Runes and Sens
Can't tell where they, end and begin
Boys and girls with, glyphin' ways
East side bangs, oh, East side fades

Desperate phantoms comin' for your money
and Dead Zone Boys are makin' awful sounds
Dark figures in the night all through the irv ignore the light
Unhappy with their fate 'cuz they're earth bound

The devil won't stop...He's after me

East side fades that crown the strong and hungry
Devil voices tempt us from the ground
But we will be alright if we preserve positive light
We know that what we have is seldom found

Dark and light, oh, Runes and Sens

Can't tell where they, end and begin
Boys and girls with, glyphin' ways
East side bangs, oh, East side fades

Glyphin' Out

All the Runes, in my mind, is comin' true
What, to do, I can't make, my body move

chorus

I know glyphin' out, is a fun thing to do
When slow, glyphin' out, can make your body, move

Tall and true, beams of light, around the room
Falling through, shapes describing what I do

chorus

Martian notes, alien clues, tall and true, the runes

chorus

Evil Guh

Evil woman, every day, evil girl I know you're here to stay
Sharp tooth, baby, don't I know, that red eyed lady just wont let me go

My evil woman, my evil guh

Bad bad beauty, inside my head, I thought I left her, but she's up ahead
My evil woman comes round at night, this devil lady wants to start a fight with

My good woman, my good guh

(Devil talk)

My evil woman, my evil guh

XXXiawn Shell

Shawn Shell, dancing on the wishing well
Shawn Shell, champion of, the libra scale

Overwhelming love, I got it!

Long bell, ringing out for someone else
Long bell, locked up tight, but left to melt

I need trees in my life!

Zombie Tear Drops

Zombie tear drops, zombie tear drops that you cried me
Zombie tear drops, zombie tear drops on East side streets

They want it and they 'gonna get it, they the ones with the glassy eyes
Take my hand girl, they all around but I know the way

Zombie tear drops, zombie tear drops that you cried me
Zombie tear drops stuck to my teeth

They want it and they 'gonna get it, put a mute on your nervous cries
Think again girl, they move slow, but they'll never stop

bridge

Watch each step you make on the evil night, Right! Left!
Good ones fall from grace on the evil night, Right!, Left!
Ones that took a short trip won't come back, Right!, Left!
Glows left now much each pick up the slack, Right!, Left!

Zombie tear drops, you know it's over when you feel 'em drip
Zombie tear drops, you swear you won't, but you'll love the trip

I can feel it blooming in my body, my heart stopped but I'm still alive
Understand girl, we all around and we need your blood

Zombie tear drops, zombie tear drops in my meat
Zombie tear drops, zombie tear drops underneath my feet

(Zombie transformation)

Zombie tear drops...that you cried me

bridge

Zombie tear drops, runnin' down my cheeks
Now I feel full, and I don't feel weak
Runnin' down my face
Zombie tear drops

LIGHT

Back when I was just a new creation, a bright sensation in my veins
I remember childhood elation, a demonstration of the great (LIGHT!)
Now I know that I was fresh from a world ago, a dull glow is still left in my mind
Making my way back to the point of conception it's a resurrection time, get in line

(Repeat)

Man every time you come around, my whole worlds gets lighter
It's like you got that special magick, it's like you keep that magick potion in your pouch, you know what I mean?
And it really makes all the difference for me
When I can call out, and you come down and take care of what's happening around me with the shadows and whatnot

FIFE #1

chorus

I need to have faith in the fuckin' again, faith in the fuckin' again
faith in the fuckin' again, and again, again, again

When I came into this world it was a special time
Only parents have the wisdom of the miracle of life
...and then they have

chorus

In my life a world ago I'm sure I had it right
But now that I've been here so long it's cloudin' up my mind
...that's why I need

chorus

Dark temptation seeps up from the ground down here
and I can feel the light inside me disappear, no no no

The devil thinks he has me where he wants me now
but he underestimates the limit of your power
ohhh, 'cuz I know...you can give me

chorus X2
